

2012 VOSS TITAN

TITAN FACTS:

- Frame: UD / High Modulus Aero Carbon
- Bottom bracket: BB30
- Fork: UD / High Modulus Aero Carbon, 1 1/2" - 1 1/8"
- Seat Post: VOSS Full Aero Carbon
- Headset: Oversized-Integrated 1 1/8" - 1 1/2"
- Cable Routing: internal

OVERSIZED REAR STAYS:

Allow the vertical compliance necessary to maintain control over any surface and the comfort required to deliver maximum power.

POWER TRANSFER:

Massively oversized BB area paired with the oversized rear drops delivers the torsional rigidity needed to transfer the power applied to the cranks into blistering speed.

OVERSIZED HEADTUBE:

Deep radius head tube and the integrated tapered carbon steered fork provide maximum torsional stiffness for precise steering and stability. Molded integrated headset for weight saving.
